

Office of Civil Surgeon Jalandhar

No. IDSP/2023/281

Dated: 13-09-2023

To

District Education Officer,
Primary/Secondary, District Jalandhar

Subject: Engaging School Children in the Campaign "Har Shukrwar, Dengue Te Vaar." to Amplify Dengue Awareness

In reference to the subject mentioned above, I kindly request your intervention in instructing the Principals of schools within the district to spearhead a dynamic and informative campaign named "Har Shukarwar, Dengue Te Vaar." This campaign aspires to bolster the awareness and prevention of dengue within the district. It is crucial to nurture an environment where students are well-informed and prepared to undertake proactive measures to prevent the spread of dengue. Kindly instruct the school principals to organize a series of enlightening lectures, augmented with stimulating quiz competitions. These activities are poised to be an excellent conduit to instill knowledge and cultivate a heightened sense of responsibility among the young minds. Furthermore direct the principals to involve students in activities that focus on the eradication of potential breeding grounds for dengue mosquitoes in their surroundings. These initiatives could include cleanliness drives and creative poster-making sessions that emphasize dengue prevention.

This initiative is not only poised to serve as a weekly reminder but also aspires to foster a sense of community and solidarity during these challenging times. To ensure the authenticity and accuracy of the content imparted during these activities, the guidance from our dedicated Epidemiologist Dr. AdityaPaul Singh can be accessed who can be reached at 97795-19865.
